PRICE FIVE DOLLARS PER YEAR, IN ADVANCE

Published Monthly by EDWARD JACKSON, 318 Majestic Building, Denver, Colorado, U. S. A.

Entered as second-class matter November 6, 1912, at the Postoffice at Denver, Colorado, under the Act of March 3, 1879.

Skiascopy and Its Practical Application

BY EDWARD JACKSON, M. D., DENVER, COLO.

FOURTH EDITION

REVISED AND ENLARGED. WITH CHAPTERS ON EXACT SKIASCOPY AND AUTO-SKIASCOPY. OCTAVO 120 PAGES, ILLUSTRATED.
SENT POST-PAID ON RECEIPT OF ONE DOLLAR.

Herrick Book and Stationery Company

934 15th Street Denver, Colorado

Ophthalmic Literature

VOL. V. DECEMBER, 1915. NO. 12.

Edited by EDWARD JACKSON. Assisted by WILLIAM H. CRISP.

INDEXES.

The present number completing volume five is largely given over to the annual indexes. Knowing an author's name one may find, in the Index of Authors, references to all papers he has published during the year. Where references to a definite subject are sought, the Index of Subjects is to be used very much as an ordinary book index.

If it is desired to cover the ground very thoroughly, it will be best to go over each number of the year and examine the particular heading under which that subject might be mentioned. For example, in looking up traumatic cataract, one might examine the lists of papers on the "Lens," and also papers upon "Injuries."

The **repeated titles** will often be found to render accessible the essential part of a paper, the original of which would be entirely out of reach. These give (in brackets) after the author's name, the volume and page of **Ophthalmic Literature** where the title of the paper will be found, then the journal, volume and page where the translation or abstract is published.

MISSING NUMBERS.

Subscribers are requested to look over their files **at once**, and if any numbers are needed to complete the same, to apply for these immediately. Complete sets of OPHTHALMIC LITERATURE are now obtainable only with difficulty, and will become more valuable from year to year.

BOOK NOTICES.

Transactions of the American Ophthalmological Society, Volume 14, Part I. 416 pages, ill., 8vo. Published by the Society, W. M. Sweet, Secretary, Philadelphia, Pa.

The Transactions of this Society ought to be within reach of every American ophthalmologist. Its thirty-four papers are almost uniformly of high value, and all but four of them are accompanied by valuable discussions. Both papers and discussers approach their topics from the point of view most interesting and valuable to the American ophthalmologist. This part contains two full-page colored plates, twenty-two pages of half-tone plates, and thirty-nine other illustrations. The different topics considered are mentioned under their appropriate headings in the Index of Ophthalmology and cannot be repeated here; but they cover a wide range of subjects of practical importance. It is not too much to say that this is the most valuable volume relating to ophthalmology that has appeared during the year.

Index of Ophthalmology

DIAGNOSIS.

Ayer, J. B. Lumbar Puncture and Examination of Spinal Fluid in Affections of Eye. (Dis.) American Ophth. Soc. v. 14, p. 205.

Ophthalmic Year Book

VOLUME 12

Will cover the literature of ophthalmology for the year 1915.

NOW IN PREPARATION
PRICE TEN DOLLARS

Special rate to advance subscribers in connection with Ophthalmic Literature.

318 Majestic Building, Denver, Colorado.

VOLUME 11.

Recently issued, 545 pages, illustrated, with Bibliography of literature for 1914. Price $10.

WHAT OPHTHALMIC EDITORS THINK OF IT.

"We make the annual welcome to the Ophthalmic Year Book. It is somewhat enlarged and carries perhaps a larger amount of American and English abstracts than heretofore. The work is commended for the library of ophthalmologists."—Ophthalmology, v. 12, p. 203.

This welcome yearly visitor needs no introduction to our readers. We know that it is an excellent digest of the ophthalmic literature, and the names of the men with whose collaboration it is published warrant nothing but good work.—American Journal of Ophthalmology, v. 32, p. 319.

Though the book is somewhat larger than in preceding years, the size of the single abstract has not become too long. The amount of labor which a book of this kind entails cannot be comprehensible to one without personal experience in abstracting, and the mere arrangement of the reviews is no light task. The editor and his collaborators deserve our gratitude; and any support that we can furnish to the project by subscribing should be unhesitatingly given.—Archives of Ophthalmology, v. 45, Jan.

We have so often expressed our high opinion of this annual volume that further commendation may seem superfluous. It is, however, only fair to say that the eleventh volume worthily maintains the reputation gained by the previous numbers. The Year Book has become an essential part of the library of the ophthalmic surgeon. The general arrangement of the contents of the volume is unaltered. The excellent bibliography and index, upon which we have learned to rely, are as complete and satisfying as ever.—Ophthalmic Review, v. 34, p. 353.

We extend the heartiest possible welcome to volume 11 of Edward Jackson's Ophthalmic Year Book, a work indispensable to any ophthalmic surgeon who is not wholly indifferent to the literature of his specialty.—Ophthalmoscope, v. 13, p. 584.
